## SUMMARY

Frontend-focused Software Engineer with hands-on experience building production-style web applications using React and Angular. Worked on real-world systems including a freelance marketplace platform and an HR management system during internship and project work. Strong in UI implementation, component-based architecture, and API integration, with working knowledge of backend development using Node.js. Seeking a remote frontend or frontend-heavy full-stack role.

## EDUCATION

### Bachelor of Science in Computer Science and Engineering

Mekelle University, Mekelle Institute of Technology – Mekelle, Ethiopia

Graduated: June 18, 2025 | **GPA:** 3.7 / 4.0

Passed National Exit Exam with **82%** – May 17, 2025

## SKILLS

**Frontend:** React.js, Angular, JavaScript (ES6+), TypeScript, HTML5, CSS3

**Backend:** Node.js, REST APIs, Firebase

**Databases:** MySQL, Firebase Realtime Database

**Tools:** Git, GitHub, VS Code, Postman

**Deployment:** Netlify, Firebase Hosting

**Soft Skills:** Communication, Teamwork, Problem Solving, Adaptability

**Languages:** English (Fluent), Amharic (Fluent), Tigrigna (Native)

## PROFESSIONAL EXPERIENCE

### METNEE PLC

*Web frontend developer*

Mekelle, Ethiopia

Nov, 2024 - Feb, 2025

- Developed and maintained frontend features for **Sheeqle**, a freelance–company connection platform
- Built reusable React components and implemented client-side routing
- Translated UI/UX designs into responsive, production-ready interfaces
- Collaborated with backend developers and worked within a team-based codebase

### Niyat Consultancy - Software Developer

*software developer*

Mekelle, Ethiopia

July 18, 2025 – Present

- Developing and maintaining frontend features using React/Angular for client-facing applications
- Implementing responsive UI components and integrating APIs
- Collaborating with team members to deliver features on schedule

## PROJECTS

### Sheeqle-connect freelancers with companies

<https://github.com/ESRAELTEFERI/sheqlee-main>

*React.js, HTML5 / CSS3 / JavaScript, CSS Modules, Firebase UI/Auth*

- Built the complete frontend for a multi-role web platform during internship
- Implemented freelancer and company user flows with responsive UI
- Focused on clean component structure and maintainable styling
- Codebase reflects production-style frontend development

### HRMS (Human Resource Management System)

*Angular*

- Developed HR admin and payroll modules using Angular
- Built dashboards, forms, and role-based UI workflows

### Full-Stack Todo Application (TickTock-Task)

*Angular & Nodejs (MEAN stack)*

<https://github.com/ESRAELTEFERI/TickTock-Tasks>

- Built a full-stack application with REST APIs
- Implemented CRUD operations and basic authentication

### Food Delivery Web App

*React.js*

<https://github.com/ESRAELTEFERI/FoodDelivery>

- Developed a user-facing food delivery interface with modern UI patterns
- Implemented component-based architecture and responsive layouts
